

14th European International RV FlyIn Hoganas Airfield, ESMH Sweden August 8 - 10th

Northwest Scania Aeroclub and EAA Sweden welcomes all RV pilots and builders and of course all Sport Pilots to the **14th Annual European International RV FlyIn** at Hoganas Airfield, **ESMH** in south Sweden.

Flying to the Hoganas RV FlyIn in your own RV has become an institution among RV pilots and the FlyIn to fly to for the RV enthusiasts throughout Scandinavia and Europe. Through the years there have been flying visitors from Germany, Holland, England, Spain, France, Italy and all the Nordic countries. Many builders and builders-to-be have been visiting the FlyIn to study flying RVs and get first rides in an RV.

With the RVs being excellent travelling aeroplanes Hoganas is not more than 4-6 hours away from most European airfields. Arriving Friday afternoon gives you a relaxing weekend before flying back home on Sunday afternoon/Monday morning or travelling on for your flying holiday trip.

Departing from within EU you may fly direct to Hoganas, departing from outside EU you have to enter EU on a customs airfield somewhere on the trip.

As always RVers, and of course all Sport Pilots are very well taken care of by the aeroclub members. Food and drinks are available all days; BBQ Friday and Saturday evenings and full Swedish breakfast Saturday and Sunday mornings.

Unleaded fuel, **91/96UL** at **€1,75** and **100LL** at **€ 1,95** (around) and airplane maintenance shop available all weekend. No landing or parking fees.

Minibus transportation to and around town is available at all times.

Accommodation is available in the clubhouse (limited), in B&B, hostels and regular hotels in and around town. Excellent campgrounds outside of the clubhouse, toilets and showers inside.

There will be Technical Forum and FlyOut activities for the pilots and Ground activities for the non-flying visitors. A traditional NavRace around the local areas will be arranged.

For airfield and aeroclub info, check www.nsf.se
